Investment objective and policy

The fund seeks long-term capital appreciation by investing in equities offering high dividend yields.

BL-Equities Dividend invests in international companies whose current or expected dividend yield is higher than their benchmark index. There is no specific geographical, sector or monetary allocation. Companies are selected based on their valuation and intrinsic quality.

Portfolio manager comments

In the first quarter of 2021, BL Equities Dividend gained 3.70% (retail accumulation share in euros, net of fees).

During the period, we sold our entire holding in Roche in order to focus on better opportunities. These included significantly strengthening L'Oréal and Coloplast.

L'Oréal is the world's leading beauty company (skincare, make-up, hair colour and haircare, perfumes) backed by a broad portfolio of strong brands with powerful histories (L'Oréal Paris, Lancôme, Yves Saint Laurent, Maybelline, Kiehl's, Kerastase, Armani, La Roche-Posay, NYX, Urban Decay, CeraVe, Redken, Garnier, Vichy, SkinCeuticals, Helena Rubinstein, Stylenanda, Valentino, etc.).

Coloplast is the world leader in solutions for stoma and incontinence, its two main divisions. It has a share of around 40% in these oligopolistic markets. The group is also active in wound and skincare, as well as urology.
