

Risk / return ratio

Investment objective and policy

The fund's objective is to generate long-term capital gains by investing in high-quality European companies that have a sustainable competitive advantage and a strong family imprint (the family has partial control or direct or indirect representation on the Board). It aims to generate higher risk-adjusted returns than its benchmark universe over a full market cycle. The fund manager implements an active, long-term strategy based on solid convictions.

Key Features

An active, fundamental, conviction-based and purely bottom-up approach, oriented towards the long term;

Investment in high quality family businesses:

- o Founder / heir generation / family acquirer with either more than 25% of the voting rights or between 20 and 25% of the voting rights and family control (general management and Chair of the Board);
- o Emphasis on the family dimension, owner's mindset and vision for the business;

Constant attention is paid to the quality of the fundamentals and the valuation of the companies included in the portfolio;

Consideration of sustainability risks at various stages of the investment process (exclusion, valuation, controversy monitoring);

Regular review of the valuation of each stock and the average valuation of the portfolio;

Non-benchmarked strategy resulting in significant deviations from the initial investment universe;

Low turnover.
