

This document lists the execution venues used by Banque de Luxembourg (hereinafter the Bank).

These execution venues are divided into three categories:

#### Regulated markets

- In Luxembourg, these are facilities that appear on the official list of regulated markets kept by the Commission de Surveillance du Secteur Financier (hereinafter the CSSF).
- In the other Member States, they are the facilities that appear on a list drawn up by the European Commission in virtue of article 56 of European Directive 2014/65/EU.
- In third countries, they are facilities that are authorised and/or supervised by a public authority, and which operate regularly in accordance with provisions equivalent to those of title III of European Directive 2014/65/EU.

#### Multilateral trading facilities (MTF)

This is a multilateral system, operated by a credit institution, an investment firm or a market operator, which brings together multiple third-party buying and selling interests in financial instruments – in the system and in accordance with non-discretionary rules – in a way that results in a contract in accordance with title II of European Directive 2014/65/EU.

- In Luxembourg, these are the facilities that appear on the official list of MTFs kept by the CSSF.
- In third countries, they are facilities that operate regularly in accordance with title II of European Directive 2014/65/EU.

#### Systematic Internalisers (SI)

In accordance with article 4 paragraph 20 of European Directive 2014/65/EU, this is an investment firm which, on an organised, frequent systematic and substantial basis, deals on own account when executing client orders outside a regulated market, an MTF or an OTF without operating a multilateral system.

By way of example, a non-exhaustive list of each type of instrument can be found below.

## 1. Equities and equity equivalents

Depending on the liquidity available, equity orders may be executed on either regulated markets or multilateral trading facilities (MTF).

Access to certain execution venues may require segregated accounts to be opened.

### a. Regulated markets

This list includes, but is not limited to:

Direct access
